Mr. William Carracino, President
Chemical Control Corp.
23 South Front St.
Elizabeth, New Jersey 07202

Dear Mr. Carracino:

Your firm has been removing hazardous bulk material from our plant for some time now, and I feel that you should be aware of the fact that we are required to be sure that all carriers that we do business with are 100% in compliance with current laws and regulations.

A review of our files shows that a copy of a permit of yours for the use of an "agitated thin film evaporator-steam heated" expired on 2/14/77. This was your certificate No. C-5269.

Will you please arrange to furnish me with a renewed copy of this permit and see that my name is put on your mailing list to get these copies of permits as they are renewed.

Thank you for your cooperation.

Very truly yours,

George R. Van Leuven
Transportation Supervisor
